HOAGLAND'S
NEW PATENT SHAFT COUPLING!
W. E. COOPER
HAS PURCHASED THE RIGHT FOR THIS County of the above Patent and will hereafter use it in the construction of all [illegible] Vehicles manufactured at his extensive
Carriage Factory,
Corner of Second and Morrison Streets
He respectfully refers to the following
CARD.
Having examined the New Patent Shaft Coupling invented by H R Hoagland we feel pleasure in informing the public that in our opinion it is the safest and best method of connecting shafts or tongues to all vehicles that has ever been used
It fastens without bolt or screw and is therefore easily and speedily separated. It rests on Gutta Percha so as to be entirely free from the rattling sound which so often disturbs restless horses. It is easily changed so that the shafts or tongue may be detached in an instant and is convenient safe and secure
It is easy to change to this style of coupling any buggy or other vehicle now in use and with small expense. We have come to the conclusion to use this new invention ourselves and recommend its use in all cases. We consider it far superior to the Brewster Patent heretofore considered the best in use

THE RIVER OF THE WEST VINDICATED

[illegible]

I might here add that in the summer of 18[illegible] speaking to Mr Lee [illegible] I was surprised that [illegible] Mission [illegible] I had [illegible] having heard [illegible] claimed the island on which the milling company erected a mill [illegible] they began [illegible]. They [illegible] Mr Lee [illegible] at the [illegible] meeting [illegible]

On the 2d [illegible] at [illegible] Mr Parish [illegible] operations when Mr Lee [illegible] my premises [illegible] and [illegible] to day that Dr McLoughlin claimed the island.

Vancouver [illegible] 4th Feb 1[illegible]

[illegible] Esq—*Dear Sir* [illegible] the moment I received a copy of Mr [illegible] address to the citizens of Oregon and you will see I have answered his statement in the accompanying document a measure I was induced to do in consequence of the receipt of his letter of [illegible] December 18[illegible] by the hands of Messrs [illegible] and Robb on the 2[illegible] inst [illegible] months after date but I observe a new statement in the address.

Mr Record writes "It has since been currently reported and quite generally believed that my client has renounced his right in favor of Dr McLoughlin [illegible] authorized to extract [illegible] having [illegible] the letter written by Mr Waller which not only [illegible] claims no renunciation but on the contrary is replete with modest and firm assertions of his rights in the premises offering at the same time to relinquish his claim if the Doctor will comply with certain very reasonable and just conditions. Upon this offer the parties have come to [illegible] until my arrival in the city."

I do not understand what Mr Record means. I never received a letter from Mr Waller [illegible] the [illegible] between him and me and I wish much Mr Waller would show me a copy of the letter to which Mr Record alludes as the first proposal in writing I received was Mr Record's letter of 2d November 18[illegible] but in the statement he makes of this letter I see he omits a very important part, the demand of £300 for himself to recompense him for making good my claim.

Mr Record writes "When Dr McLoughlin attempted to employ me to [illegible] his claim disregarding the rights of all other persons." I happened to hear Mr Record state in my presence, that no British subject could hold lands by pre-emption rights in this country. As this was the first time I heard such an opinion I was surprised and the day after offered him a fee and wished to consult him about my case and how I should proceed to substantiate my claim at the Falls. He declined accepting the fee and giving an opinion in general terms that my claim might be made good, by which it seemed to me he was already engaged to oppose me. But a few days after, he came and [illegible] he had entire confidence in the final result of my case provided I gave up to the milling company the island five acres such as he would select [illegible] Mr Waller [illegible] the Methodist Mission claimed and 1300 sterling to himself to make good my claim [illegible] this [illegible] say the least [illegible]. I declined the proposal and this is the only proposal I had in writing.

But how Mr Record could write [illegible] fellow citizens are the facts and [illegible] the points of law in my client's case. Upon the same principle contended for by Dr McLoughlin any of you may incur the risk of being ousted from your farms in the Colony by the next [illegible] foreigner who chooses to take a fancy [illegible] unless in the first instance you come unanimously forward and resist these usurpations.

When have I attempted to [illegible] on any one or to usurp any one's farm? Had I not a house built and timber [illegible] on the place for a house and store [illegible] race [illegible] several years before Mr Waller left the States to come here? Did not Mr Lee ask for some of the squared [illegible] of me to build the house Mr Waller now resides in for the Mission and Mr Waller a servant of the Mission [illegible] How can it be [illegible] Mr Waller says he cultivated ground. Yes [illegible] was ground I had cleared and all well [illegible] cultivate and told him he might do [illegible] till I required it.

As to the points of law I am [illegible] to pass an opinion [illegible] the facts [illegible] statement [illegible] they are.

But this address [illegible] the people [illegible] my aggre[illegible] [illegible] the aggrieved party. I am [illegible] who attempted to cultivate and [illegible] into the country and I am certain every one will admit that I have done my utmost to assist new beginners who required help and now I am the first whose rights are invaded and that by missionaries who come here expressly for the purpose of teaching the religion of Christ which proclaims peace and good will to man. For the sake of that religion [illegible] we are in duty bound to respect I am sorry to state that the first violation of the rights of another in this country is committed by a minister of the Gospel who is commanded to teach "Thou shalt not covet thy neighbor's house nor [illegible] nor anything that is his." Let the community judge if this command in this instance is obeyed.

(Signed) JOHN McLOUGHLIN

Affairs remained in this state till April last when conversing with Dr White I do not recollect how the subject came forward or which of us spoke of it first but merely that I was about to finish my dispatches [illegible] I mentioned I would be happy to have this difference between Mr Waller and the Methodist Mission on the one part and myself on the other settled and Dr White observed "I am going up to the Falls. I will take Mr Gilpin with me and we will converse with Mr Waller on the subject." "Well" said I "I am going to the Falls after tomorrow and we will meet there" which I did. I saw Dr White at the Falls to whom I mentioned I was of opinion the best way to settle the business would be to leave the affair to arbitration and that he and Mr [illegible] would oblige me by acting for me, but on the morrow Dr White came to me and told me Mr Waller would make no arrangement. A few hours after as I left the place with Mr Gilpin who returned with me to Vancouver, he told me that Mr Waller told him to tell me he would come to Fort Vancouver with Mr Leslie and would see if we could settle. They came after they had had a good deal of discussion with my arbitrators Messrs Douglas White and [illegible] presented [illegible] five acres and five hundred [illegible] Mr Waller and [illegible] the Methodist Mission [illegible] because two of my arbitrators Messrs White and [illegible] were opposed to it and Mr Douglas brought them to agree [illegible] I am fully convinced [illegible] seeing the much [illegible] this [illegible] better for me to have it settled and [illegible] with which he told me himself [illegible] stating the terms. I thought them exorbitant and I said [illegible] Well [illegible] Mr James [illegible] Mr Douglas [illegible] the papers.

The Rev Mr Gary arrived in [illegible] June 1844 and [illegible] began [illegible] the Mission property [illegible] with the Rev [illegible] and after exchanging a few words [illegible] sell me the lots [illegible] the Methodist Mission [illegible] me the first offer and [illegible] Methodist Mission [illegible] to accommodate them [illegible] that although [illegible] had been [illegible] and at the same time [illegible] pressed a hope that [illegible] necessary to me and [illegible] suitable for [illegible] they would exchange them which Mr Leslie said he could not do [illegible] be no objection when Mr Lee came and I observed to Mr Gary that I was still willing to give other lots for them but Mr Gary would not accede to this exchange because they were disposing the Mission. I then observed in that case the fairest way would be for the Mission to return me my lots and I would pay them for the improvement. Mr Gary replied [illegible] his property and that there was [illegible] purchase [illegible] the first offer [illegible] what he would do to him [illegible] Saturday [illegible] in Mr [illegible] I received the following letter

WALLAMETTE FALLS 1 July 18[illegible]

To JOHN McLOUGHLIN Esq [illegible] We deem it proper to present the bill of items that you may more fully understand the grounds of our estimate

[illegible]

The two lots occupied by the church are not included in the above bill. If you should conclude to purchase the above named property you will do it with the understanding that we reserve the occupancy of the warehouse until the first of June 1845 the house in which Mr Abernethy resides until August 1845 and all the fruit trees on the premises to be moved in the fall of 1844 or spring of 1845 and the garden vegetables now growing.

If you see fit to accept of this proposition please inform us the earliest opportunity as we cannot consider ourselves pledged longer than a day or two.

Yours &c

(Signed) JOHN McLOUGHLIN

I observed to Mr Gary that I considered the valuation [illegible] high considering the manner I had got up these lots and certainly I wanted these lots to carry on my business but taking every point into consideration I would [illegible] to leave it to be arbitrated by people in the country or even refer it to the decision of the Methodist Board in New York. Mr Gary would not agree to the first nor to the second saying this last was too remote. Seeing he would not agree to either, and as I wanted the lots for my business I had to consent to pay the price demanded and observe with respect to the $100 they charge me for the old house that the said house is built with wood I lent the Mission in 1840 and which they have not as yet returned.

During the discussion I observed to Mr Gary that I conceived he took a mistaken view of the case that he viewed as he told me the way in which I let the Methodist Mission have these lots as a business transaction in which light I could not consider it and that I was of opinion the M E Board would agree with me. A little while after I had signed accepted Mr Gary observed that he made no promise but he would state my remark to the M E Board and let me know their answer.

In summing up the affair I selected a place in 1829 got a mill race blasted four houses built and wood squared for a saw mill and store built in 1840 here was only one house remaining and a quantity of squared timber. In that year the Rev Jason Lee the Superintendent of the M E Mission in Oregon asked from me of the timber to build a store to shelter their supplies and a house to lodge a Missionary which I let him have, and stated in writing to Mr Lee as seen by my letter of 21st July 1840 [illegible] that place as my claim yet the Rev Mr Waller whom the Rev Mr Lee placed there as a Missionary in 1840 set up a claim in opposition to mine and Mr Lee demanded 11 lots for the M Mission and to disembarrass myself [illegible] give [illegible] to their demands in the expectation that as the 11 lots are [illegible] a suitable place of a Mission that when Mr Lee comes they will be changed but the Mission is dissolved and these lots which were given merely for Missionary accommodation instead of being [illegible] required for the purpose for which they were granted [illegible] to purchase [illegible] from the M Mission in Oregon [illegible] because [illegible] they came [illegible] by neighbors [illegible] and that of course they [illegible] the doctrine they taught. But the Methodist Mission since 1841 has [illegible] persevering hostility towards me. In that year they formed a company to erect a grist and saw mill on an island in the Falls about two and a half acres in extent over which in high water the water flows and in low water it is separated from the main and by a channel which in the summer can easily be dammed and is then only 40 feet wide. About three quarters of the stock of this milling company belongs to the clerical and civil members of the Mission but to [illegible] from the public its being a Mission mill they [illegible] the remainder of the stock to the settlers and call it a public mill for the accommodation of the public. If such had been their object they would have erected it in the Wallamette among the settlers who were in great want of a flour and saw mill but their object was to deprive me of my claim which I stated to mine of 21st July 1840 to the Rev Jason Lee but they say it can not be part of my claim. Let us suppose it can not be part of my claim ought not the Missionaries who were all well acquainted with me as neighbors to have stated this to me before beginning to work on it and try to convince me of my error? But the reverse instead of acting so as I stated they formed a company to dispossess me of my land and the Rev Mr Waller, in a letter dated Wallamette Falls 6th April 1842 and published in the [illegible] of [illegible] October 1842 and repeated in the Senate of the United States by Mr Linn in January 1843 refers to the disputes which have already occurred between the Hudson Bay Company and the recent American settlers. The company claiming under the right of pre-emption some of the choicest tracts now occupied by American settlers.

The only spot about which we had any difficulty is the Falls. It is clear I improved upon it eleven years before the Mission came. That at the time they went on it in 1840 I stated in a letter dated 21st July to the Rev Jason Lee that I considered it my right. That I had a house and squared timber besides [illegible] of which I lent enough to build a house and store for the Mission and after being 18 months in the place Mr Waller then set up a claim in opposition to mine. With these facts before him Mr Waller a Methodist Missionary states that the Hudson Bay Company are claiming under the right of pre-emption some of the choicest spots now occupied by Americans [illegible]

I have [illegible] to discussing this business that Mr Gary said he was [illegible] and regret that he found [illegible] the [illegible] difference between [illegible] and me in this affair [illegible] I replied that [illegible]

I was [illegible] on the 5th April [illegible] that a petition had been got up against [illegible] forwarded to the Congress of the United States

[illegible] CITY 5th April 18[illegible]

Dear Sir I have [illegible]

[illegible]

1st You opposed them in purchasing of cattle

2d You measure your wheat with a measure which is too large

3d You kick the half bushel

4th You club the half bushel

5th When they erected a sawmill you erected a [illegible]

6th You threaten that if they sell lumber for $[illegible] you will sell for $[illegible], if they sell for $12 you will sell for $10 [illegible]

[illegible] exaggeration [illegible] reference to his town lots [illegible] other things which I have no space [illegible] a general [illegible] that you and your company have always opposed all the interests of the citizens [illegible] ungenerous [illegible]

What surprises me still more is that he names so many of the citizens otherwise respectable [illegible] appeared upon his petition, and to my utter [illegible] the names of some of my party that came through last fall but upon inquiry of them they are ready to affirm that they were imposed upon, that the petition was presented to them as a petition to the United States requesting them to extend their jurisdiction over this country to enact laws &c for the government of the same. But this is a foul deception. The petition originated here at the Falls during Mr [illegible] stay here, whether it originated with him or with what particular one I do not know. Shortess set out yesterday post haste to overtake those persons who were going to the States in order to give them charge of the false and ridiculous thing.

Doctor White may have informed you in reference to the matter previous to the reception of this. He has been advised of it some time. I presume I had heard nothing of it until the day before yesterday although it was in circulation in the same neighborhood in which I was yet it was kept in the dark from me otherwise most certainly none of my party of last Fall would have signed it. Even now, upon conversing with them I find they would not hesitate to sign a counter petition. The thing is most ridiculous most scandalous yet I will not take the liberty to suggest a course in advance to be pursued in the premises. I suppose you can better judge of the probable success which might attend a counter petition. I can only speak for the party of last Fall, they I think to a man, would sign a counter petition, how it would be with others I can not pretend to say.

Signed L. W. HASTINGS

Vancouver, 6th April 184[illegible]

L W HASTINGS Esq *Dear Sir* Yours of the 5th inst reached me yesterday evening. I had heard before of the petition but could not at first learn the purport. I was however afterwards told it was because I had committed aggressions on American citizens and not being conscious of anything of the kind, I remained silent in the expectation or rather certainty that in common fairness they would send me a copy of the petition. [illegible] opposing them in purchasing cattle it is false. Mr Lee knows how false this is: every one knows who was then in the country that so anxious was I to replenish the country with cattle that I killed none till 1838 and would sell none because, as I told them they would kill them and not allow them to increase but lent cattle to every man who wanted to settle for which when they had them I took wild cattle from California and of which fully one half died a short time after we got them.

As to [illegible] striking the half bushel it is the custom in that part of Canada where I have been. The measure is the imperial measure and which ought to contain seventy pounds of good wheat. Talking some time ago with Dr White in case the cooper might have made a mistake I had the half bushel measured by an imperial copper half pint measure (sent here for the purpose) in the presence of Dr White and though it was exactly the measure with water yet I find filled with wheat it does not weigh 70 pounds and as our wheat is as good as any I know I infer that the measure is smaller than it ought to be which is caused by the copper measure having been knocked a little on the side and is, therefore smaller than the size.

The truth is when I was first asked the price of wheat I said 2s 6d as I calculated the bushel [illegible] pounds but finding, on measuring it that it weighed [illegible] pounds I told them, without their asking [illegible] I would give them [illegible] per bushel.

I thought that my character as an honest man was [illegible] when I find who those are who have cast these reflections on me I shall have no dealings with them as I will not deal with people who suspect my integrity. As to the reports, if they [illegible] their boards $20 per M I would sell them for $15 per M, and undersell them it is false and as to the Hudson's Bay Company and I opposing the interests of the citizens really really the citizens are themselves the best judges if we did so or not and I am certain they are so [illegible] to a sense of what is due to truth as to make such an assertion. [illegible] for me to say anything but I feel confident that I can easily prove it is not so and that a very large majority will [illegible] Indeed to tell you the truth I am astonished that there should be one person in the country to say such a thing of me. As to the petition considering the way in which it was got up their not sending me a copy and known as I think I am to the community at this place if the document went no further than this place I would be silent but when I consider where it is [illegible] and to whom it is to be presented—respect to them and to myself, makes it my duty to take notice of it and if you are of that opinion I would thank you to take the measure you think most advisable which I presume would be by a meeting expressing their opinion on it or on the line of conduct I have pursued. Will you consider this and give me your opinion by return of messenger in two or three days?

Yours truly &c,

(Signed) J McLOUGHLIN

The following is a correspondence I had with a Mr Shortess the writer of a petition to the Congress of the United States against me which was signed by all the Methodist Missionaries except three though they must have known the assertions were so unfounded or exaggerated and a copy of this petition was as will be seen by the correspondence refused me so as to deprive me of the means of replying to it.

Vancouver 13 April 1843

MR SHORTESS *Sir* I am informed that you have circulated a petition for signatures complaining of me and the Hudson Bay Company. I hope you will, in common fairness give me a copy of the petition with the names of those who signed it affixed to it that I may know what is said against us and who those are who think they have cause of complaint against us.

I received the following answer

[illegible] J McLOUGHLIN C F H B C—*Sir* Yours of the [illegible] inst was received this afternoon and as I had in my note of the 14th inst stated that I was not authorized to give a copy of the memorial or the names of the signers, I was [illegible] at finding a renewal of your request for the document by which process of reasoning you have come to the conclusion that the drawer of a memorial has a right to dispose of it without the consent of the signers is to me inexplicable. [illegible] who has given you the information mentioned in your notes can give that which you seem so anxious to obtain.

Yours respectfully &c

FRIDAY MORNING JULY 15 1870

Southern Oregon and the Humboldt Branch

The papers of this State continue to discuss the railroad situation and to consider current movements in relation to their bearing upon local interests. People [illegible] especially in the southern counties now [illegible] comprehend the Humboldt [illegible] and the relation [illegible] system of the State. [illegible] has elicited many [illegible] understood and [illegible] of the whole situation than most persons hitherto possessed. All now fully understand that the southern counties can get a railroad only by the passage of the bill for the Humboldt branch in accordance with the [illegible] amendment proposed by Williams. [illegible] that branch should take the [illegible] route the Central Pacific Company would certainly build their California and Oregon road to an intersection with it in the Goose Lake country and not run into Rogue River valley at all. In that event the Oregon and California road would be forced to stop at the head of the Wallamet valley. The whole problem now is plain to everybody, though the southern Oregon people seem to have been the last to see it. But as an evidence that they see it now, take the following extract from a letter written to the Jacksonville *Sentinel* from Douglas county:

> The great strife was to defeat Senator Williams really the savior of Southern Oregon. * * * If I was in the Senator's place I would cancel the railroad grant and say to the people of Southern Oregon, go back to your first love a country inhabited by grizzly bears and hostile Indians, stand guard night and day over your families and property, ride broken down sore backed mules and glass eyed, knock kneed cayuses all the balance of your lives.

The *Sentinel* discusses the subject editorially. It observes that the Central Pacific Company are anxious to defeat Williams amendment requiring the Humboldt branch to join the Oregon and California road in Rogue River valley, and adds:

> If Senator Williams' amendment is sustained there is no doubt of the railroad but if Congress ever rejects his amendment and allows the Central Pacific and the Portland and Humboldt Company to have their own way no one can tell when a road will ever be seen in Shasta and Rogue River Valleys. It is a question in which every citizen south of the Calapooia mountains is deeply interested. It should have been the all absorbing question at the last election, but the people appear to have overlooked their interest.

The *Statesman* also discusses the subject at some length. We give an extract:

> The strongest combination ever formed in Oregon was formed to secure the success of what has been known as the Humboldt Branch Road. Leading capitalists in Portland combined with an influential set of men at Eugene, and with the omnipotent Central Pacific Railroad Company to get the bill passed, and the object was to have that road cross the Cascade mountains, to the head of this valley and not traverse the valleys of Umpqua and Rogue river. If it succeeds and does go to Eugene, then Southern Oregon is left out in the cold, and during our day and generation, at least, may continue to be a pretty fair sheep ranch or stock range and cannot possibly be much more.

As the whole Democratic party in this quarter of the State fought so bitterly against the interests of the southern counties in this matter, it will be interesting to watch and see what method the politicians who urged on the fight will adopt to satisfy those counties. The chances now are that no railroad within the next decade will reach that portion of Oregon.

The West Side Road.

> We apprehend that many of our readers are not aware of the fact that after the passage of the bill granting lands to the Astoria and McMinnville Railroad, Mr Gaston made a contract (which was approved by the Board of Directors) with responsible railroad men in Philadelphia for the iron and equipment of twenty miles of the road, to be completed by the 1st of January next and at the same time this transfer of stock was made by Gaston, the agent for the Philadelphia company was here on the spot, prepared to carry out their part of their contract if his company would prepare the road bed ready to receive the iron.—*Herald*

The readers of the *Herald* may not be aware of the contract made with parties in Philadelphia, but the readers of the OREGONIAN are fully aware of it. Further the readers of the OREGONIAN knew a fortnight ago that the agent of the Philadelphia company was here. They knew also that the contract with that company was a conditional one and could not be carried into effect unless the capitalists (so-called) of Portland with whose privity and approval the contract had been made would put up their money to prepare the road-bed to receive the iron. This the capitalists (so-called) would not do. They declined to do anything to fulfill a contract that had been made at their instance and with the understanding that they would carry it out. The OREGONIAN day after day urged them to take hold of the enterprise but they would not. Finally when it became apparent that they would do nothing the stock was transferred to another party. The *Herald* on the following day announced the transfer and said that Mr Holladay had paid $70,000 for the franchise. But now, no doubt, at the instance of the doughty capitalists (so called), who hadn't the pluck themselves to put up their money and who don't want the road built at all unless they can manipulate it, the *Herald* stoutly denies that the franchise has been purchased and intimates that the whole movement is a trick to "cheat the west side out of a road altogether." Now inasmuch as the west side people were so sure of getting a road under the old *regime* would it not be a terrible disappointment to them to be "cheated out of it!" Those interested in the building of this road should be warned of the danger. They should not allow Mr Holladay to "cheat" them out of the road, but should insist that it be transferred at once back to the enterprising capitalists (so called) who have done so much to make it a success! They will build it! Of course they will. No danger of the west side being cheated out of a road by them.

Congress will adjourn this week unless the session be prolonged a few days beyond the time appointed for adjournment, which is not probable. Much important business is still unfinished within the last few days. Most of the principal measures that have engaged the attention of the two Houses during the session have been acted upon. Financial legislation of an important character has been enacted, the taxes have been reduced and simplified, expenditures have been diminished, and on the whole, Congress has so nearly come up to what was reasonably expected by the country that members need have little fear of meeting their constituents.

The New York *World* calls the new naturalization bill a "Know Nothing" [illegible] designed to shut out foreign born citizens from the ballot box. Yet it says that under this new law "we can easily open the door to all *bona fide* residents whether naturalized or not and permit them to vote without naturalization papers." Just how the new law can, under this showing, interfere with the rights of foreign born citizens does not clearly appear.

A Long Approved System

In the first report of the first Secretary of the Treasury, 1790, this principle is stated. [illegible] in the system of public credit of the United States that the creation of debt should always be accompanied with the means of extinguishment. [illegible] the public credit immortal and that it is difficult [illegible] Hamilton [illegible] found it was [illegible] administrations until the public debt was wholly discharged.

In England a sinking fund has been called [illegible] but it has been so called in that country because on every occasion when [illegible] has been [illegible] Pitt was an [illegible] of the principle [illegible] declared that it was the essence of the plan to keep the fund inviolate and it was [illegible] by those who succeeded him [illegible] from his maxims. But the system of a sinking fund in our country which is well in its operation as sanctioned by statesmen of different politics and tried by its results must be accepted as a great leading fact in financial history. The great improvement of the public credit during the last two years must be ascribed in large part to the revival under the present administration of the system of a sinking fund under the operation of which the first debt of the country was fully paid. It cannot be otherwise than that the value of property in public debt which rests upon [illegible] and competent funds firmly pledged for the satisfaction of the creditor is intrinsically greater than that of property in public debt which depends on annual provision.

Though Congress has recently made a great reduction in the taxes, a reduction it is said amounting to seventy six million dollars annually, yet there will be still a surplus revenue large enough to maintain the sinking fund. This will insure a steady diminution of the public debt though the surplus of revenue will not be large enough to enable the Secretary to buy in bonds so rapidly as he has been doing for more than a year past. Therefore the monthly bulletins will show less reduction after the recent amendments to the tax laws go into operation than they have shown heretofore.

It is stated that the President still has hopes of the acquisition of San Domingo. There can be no doubt that this is really one of the best territorial bargains ever offered to the United States. The complaint that there is a "job" in it could be obviated, for as the New York *Herald* says, "the Government can easily use proper vigilance in the matter, and hedge any treaty of annexation round with such provisions as to prevent jobs and frauds." In the hands of a strong power San Domingo would dominate the leeward and windward islands. It is so situated as to guard all approaches to Cuba, Jamaica, the Isthmus of Darien, and all possible modes of transit across the narrow neck of the continent to the Pacific ocean. Its spacious Bay of Samana would afford a harbor for our fleets, and a few vessels stationed there would easily reach every island and port in the Gulf. It is considerations like these which have induced the President to desire so earnestly the consummation of the treaty, and to hope that notwithstanding its failure the negotiation may at some future time be renewed.

As the *Herald* has several times admitted that Republican voters were barred out by the Democratic judges of election in Wasco county, what is its object in now denying it? As that paper prior to the election copied, if we mistake not, from the Salem *Press* a letter written by a Wasco Democrat, in which the statement was made in substance that the thing was going to be done, why does it not declare that there was no purpose to do it? It is evident that some of the *Herald's* statements about this affair are to be taken with several grains of allowance.

CALIFORNIA AND NEVADA.

The Chinese miners in Siskiyou county have refused to pay the tax levied on foreign miners, on the ground that the act to enforce the 15th amendment repeals the tax.

The Los Angeles *Star* says Southern California aspires to be set off as a separate State. It does not say, but we may presume that Los Angeles is to be the capital. No time is fixed for the change.

The Sacramento *Record* states that a few days ago a party of hunters from Marysville camped on the old Messick Ranch on the Feather River. The sparks blew from their camp fire and set fire to about 600 cords of wood, which was totally consumed.

James Wilson, supposed to be 100 years old, died at the Twelve Mile House, Santa Clara county (Cal.) a few days since. He was with Nelson at the battle of the Nile and with others tapped the keg of whisky in which Nelson was preserved. He said it tasted good.

A shooting affray occurred at White Pine on the 5th July between Wm Dodds and Richard H. Todd resulting in the death of the latter. It is considered that the shooting on Dodds' part was justifiable, and necessitated by the assault of Todd. The first shot fired by the deceased struck a bystander in the thigh, inflicting an ugly flesh wound.

The farmers in many parts of California have been driven to the necessity of employing Chinese in harvesting their crops, owing to the refusal of unemployed white men to leave San Francisco. The grain had ripened and must be harvested without delay, yet notwithstanding the fact that "gaunt famine" stared the poor working men in the face they would not go into the country to work. The reason given by some who were applied to was that it was too hot in the country. There is no danger of such men starving to death. They have cheek enough to stare "gaunt famine" out of countenance.

POLITICAL NOTES

The Democrats of Indiana demand that Thomas A Hendricks shall be their next candidate for the Presidency.

The Supreme Bench of Illinois under the new Constitution stands three Republicans to three Democrats and one Independent, McAllister of Chicago.

Congress is making a vigorous effort to get through with its work and adjourn. Indications are that all important bills will be acted on, but whether wisely or not remains to be seen. The session has been a long and tedious one and many questions of interest no doubt will be laid over.

It is not a little significant that every Republican State Convention held since the inauguration of Gen Grant has cordially indorsed his administration. Meanwhile the wise, liberal and patriotic way in which the Government is carried on, will more and more endear it to the people.

The Democratic Congressional manifesto makes a point, when it advises the brethren South "not to nominate men who cannot take the test oath." This has been sufficiently tried. The heroes of the Andersonville slaughter house, if elected, will not be allowed seats and it is no use to try to force them into Congress. On the contrary, decent Southern men unstained with blood, and willing to take the oath will be trusted. Indeed, in the present mood of Congress, they will command a premium over the average carpet bagger.

[DISPATCHES TO THE OREGONIAN.]

EASTERN DATES TO JULY 13.

Financial Details.

WASHINGTON, July 13.—A Conference report was made in the Senate on the funding bill. It strikes out the section relating to banks, as once agreed.

In the Senate the annual post route bill passed.

The Conference Committee on the tax and tariff bill made a report which was adopted. [illegible] important of the Senate amendments [illegible] agreed to by the House. The [illegible] reported by the committee was [illegible] to tariff on sugar in regard to which the tax proposed was in substance the same as the Senate classification. There was a slight reduction on Melado sugar and an increase of one per cent on higher grades of sugar. Duties on books still remained as passed by the Senate. All assistant assessors now engaged in assessing taxes which are stricken out by the bill are to be immediately discharged and supervisors' districts are to be consolidated. Gross receipts and tonnage taxes are both repealed. Following are the rates on sugar: On all classes of molasses 5 cents per gallon; on syrups of sugar, concentrated Melado and concentrated molasses 1¼ cents per gallon; on all raw or Muscovado sugar not below No [illegible] Dutch standard in color 1½ cents per lb; above No 7 and not above No 10 Dutch standard in color, 2 cents per lb; above No 10 and below No 1[illegible], 2½ cents per lb; on all other sugars above No 10 and not above No 20 Dutch standard in color, 3¼ cents per lb; on all sugar above No 20 4 cents per lb.

The Conference Committee's report on the funding bill was adopted. Section 1 provides for the issue of $200,000,000 5 per cent bonds, $300,000,000 4½ per cent bonds, and $1,000,000,000 4 per cent bonds, running ten, fifteen and thirty years. Section 2 authorizes the Secretary of the Treasury to sell said bonds at par for coin and apply the proceeds to the redemption of outstanding [illegible] at one third their par value or he may exchange new for old bonds at par. New bonds shall be issued for no other purpose. A sum not exceeding ½ per cent is allowed for disbursing of new bonds. Section 4 provides for the redemption of 5-20s now or hereafter falling due at par, beginning the first number as issued, the interest to cease three months after proper notice is given. Section 5 authorizes 3½ per cent interest on gold deposits; 25 per cent of such deposits must be retained in the U S Treasury and the balance to be used in the redemption of 5-20s, under the provisions of Section 4. Section 6 provides for the cancelling of all bonds now held or hereafter purchased on account of the sinking fund.

The reduction of taxes to be effected by the tax bill amounts to $70,000,000. The deficiency appropriation bill was reported from the Committee on Appropriations with amendments.

In the House, Butler's resolution about West Point was adopted.

Schenck reported from the Conference Committee the tax and tariff bill, which was agreed to, 143 to 49. Schenck also reported from a similar committee the funding bill. Agreed to, 137 to 31. Both bills will go to the President. Arnell, from the Committee on Education and Labor, made a report acquitting Gen Howard from groundless charges preferred against him.

Washington News.

WASHINGTON, July 13.—The Senate at 8 o'clock resumed legislative business and proceeded with the deficiency bill. Several minor amendments were made, appropriating about one million. During the evening the bill passed exempting pork packers, lard renderers and persons engaged in smoking hams, from internal revenue tax as manufacturers.

The Senate in Executive session, also confirmed Chas More Postmaster at Walla Walla, Washington Territory; Charles B Porter Surveyor of Customs and Refiner of the Branch Mint at Carson City; Wm C Whitson Associate Justice of the Supreme Court in Idaho vice Milton Kelley; Verner H Vaughan of Alabama, Secretary of Utah; John A Sutter, Jr., of California Consul at Acapulco; Henry Walker Rear Admiral vice Dahlgren; Roger N Stembel, Commodore; Wm N Jeffer Captain in the Navy, and various other naval and military nominations.

The Senate Committee on Commerce agreed to report resolutions authorizing the purchase of foreign iron ships, with authority to grant American registers.

WASHINGTON, July 14.—It was generally expected yesterday that the President would announce the removal of Motley and Bancroft and send to the Senate the nominations of ex Senator Frelinghuysen of New Jersey, for the English Mission and Secretary Cox, of the Interior Department for the Prussian Court. There is no doubt the President will to-day nominate Mr Frelinghuysen Minister to England.

CHICAGO, July 14.—A Washington special says the debate in executive session over the confirmation of Potts as Governor of Montana was quite warm. The debate lasted for hours. The vote stood yeas, 27; nays 13.

In view of the probabilities of a foreign war a joint resolution will be offered in the House to-morrow which has the approval of both Secretary of the Treasury and Secretary of State, authorizing the register under one flag of all ships of over 1,500 tons purchased abroad and held in whole or in part by American citizens. The belief of both Secretaries is that in the event of an outbreak of war abroad most of the chief foreign powers will be involved and ours would then be the only great maritime power, and so commerce would be obliged to do its business under our flag. The Prussian and Austrian Ministers have to-day expressed an opinion that the cessation of war excitement on the continent is only on the surface and that the chances of avoiding war are very few. It is known that both Ministers are taking measures looking to the purchase of war materials in this country.

The Southern Pacific Railroad bill and new apportionment bill are considered dead. Efforts to have them both taken up have been made but all failed.

The first application under the new currency act from the Pacific coast for a National Bank was made to-day to the Treasurer.

The President nominated M C Tilden as Postmaster at Sacramento. The Secretary of the Navy has directed the usual honors at all the yards for Admiral Dahlgren on Friday, the day of the funeral.

New York News.

NEW YORK, July 13.—Francis Woods, another of the Elm Park rioters has died. More are not expected to recover.

The officers of the English steamer *Sadah* were arrested for attempting to discharge a cargo of coffee contrary to a permit of the Quarantine Commissioners.

Canada.

TORONTO, July 13.—It is reported that a proclamation will be issued by the Governor General shortly declaring the admission of Manitoba into the Dominion. It will contain an amnesty clause. Advices from Fort Garry state that Riel is virtually kept a prisoner by his own men to prevent his leaving the settlement and that both whites and Indians have sent deputations to meet the Dominion expedition and tender its aid to the inhabitants along the road.

Fillibusters Convicted.

CANANDAIGUA, July 13.—The Fenian General Starr and Colonel Thompson were both convicted on two counts of indictment for violation of the neutrality treaty with a recommendation of mercy.

NEW YORK, July 13.—Wm Kaul, another victim of the Park riot, is dead.

Utah Territory.

SALT LAKE, July 13.—First Lieutenant John Hosmer died to-day at Camp Douglas.

NORTH PLATTE, July 12.—Three men belonging to a hunting party were killed by Indians this morning ten miles east of here. A number more are missing. They are supposed to be carried off by Indians.

Wyoming Territory.

CHEYENNE, July 13.—North Laramie telegrams say it is rumored that Red Cloud had been to the Cheyennes to urge them to be peaceable or he will drive them from the country. The Cheyennes are camped on the east side of Powder river. Red Cloud is expected to return to Fort Laramie on the 10th of August.

BY THE CABLES.

PARIS, July 13.—The *Constitutionnel*, Ministerial organ, has the following: The Government has every confidence that the candidature of Prince Hohenzollern is withdrawn and the peace of Europe will not be disturbed.

BRUSSELS, July 13, 10 A M.—War preparations continue in France notwithstanding the withdrawal of Prince Leopold. There is universal fear of war.

PARIS, July 13.—There is a better feeling everywhere. It is certain that several interpellations will be made in the Corps Legislatif to-day touching the Spanish question. It is believed that some parties in Chambers will force the Government into a declaration of war with Prussia.

The Government has no news of the reported massacre in China and the story is generally considered false. The Bourse to-night was animated. Rentes had fallen to 69.75.

CONSTANTINOPLE, July 13.—Another disastrous fire occurred here day before yesterday. The flames raged nine hours and destroyed fifteen hundred houses, mainly of the poorer classes.

LONDON, July 13.—The forward opening of the Thames embankment took place to-day. Reports from the interior confirm the accounts of the good effects of rain on crops.

PARIS, July 12.—The preservation of peace is assured. Reports to the contrary originate with speculators. There is a rumor that the Duke de Grammont has resigned.

PARIS, July 14.—Confidence is restored and stocks are rising.

ROME, July 14.—In the Ecumenical Council yesterday the Dogma of Infallibility was adopted by a vote of 450 affirmative, 88 negative and 60 conditional.

CALIFORNIA.

From San Francisco

SAN FRANCISCO, July 14.—French dispatches received by [illegible] leave hardly room for doubt that war with Prussia is certain. The general [illegible] among French houses here is that [illegible] families residing [illegible] have been ordered to return here as soon as possible. It is said that the French Ambassador has withdrawn from Berlin to France.

A [illegible] the passage by both Houses of Congress of a bill permitting the transportation of imported goods in bond to inland [illegible]. It will be signed by the President immediately.

It is reported from an apparently reliable source that the Gould & Curry Directors to-day levied an assessment of twelve dollars and a half per share.

The Washington Mining Company, Mariposa county, to-day elected the following Trustees: Nathaniel Page, J J Dyer, J B Hoggin, Thos Bel and B F Tuttle.

The Mountain City Mining Company, Copper District, Nevada, elected Nathaniel Page, Wm H Sharp, Stephen Otis, Isaac F Davis and B F Page as Trustees.

Stocks quiet and weak at the evening Board. Two thousand seven hundred and fifty five shares were sold. Treasure 5½; Alpha [illegible]; Meadow Valley 2¼; Jacket 53; Curry 43; Ophir 17½; Imperial [illegible]; Point of [illegible]; Chollar 32½; Savage 32; Nevada 10.

Much relief is felt at the announcement that George Francis Train, now en route will leave here for China August 1st without stopping to lecture.

A new pavement of existing cobbles imbedded in asphaltum at the City Hall would not be liable to rot but is death on horses.

The Produce Exchange to-day elected officers as follows: President—Horace Davis; Vice President—R G Mathews; Treasurer—W M McCall; Directors—J P Raymond, Isaac Lankershem, J W Jordan and G W Stewart.

The body of an unknown man was found in the Bay near Hunter's Point and taken to the Morgue. It had apparently been long in the water and was much disfigured.

The Chinese Government will probably appoint a Consul at San Francisco and forbid the emigration of females to America.

SAN FRANCISCO, July 14.—The jury in the case of F W Voll, who was indicted for the murder of Maurice Walsh a year since, tried him this week for the second time and convicted him this evening of manslaughter.

James Anderson was arrested to-day on a charge of robbery.

A *post mortem* examination reveals the fact that the death of Col John W Winters was occasioned by internal injuries received on the 4th of July by his horse colliding with a cart left in the street, aggravated by a severe cold caught on the following night.

The Police to-day were notified to pay special attention to the condition of streets, alleys and houses on their beats and to report all infractions of the new sanitary ordinances.

The latest private dispatches to San Francisco commercial houses confirm the withdrawal of the French Ambassador from Berlin.

The steamer *Colorado*, from Panama, is not yet telegraphed.

MARYSVILLE, July 14.—The Grand Jury of Sutter county have indicted John Dunn on a charge of assault with intent to commit murder. Allowed till Saturday to plead.

A large number of emigrants passed to-day en route for Oregon where they have secured a large tract of land.

LOS ANGELES, July 14.—It is rumored that rich gold mines are discovered between this city and Soledad. A prospecting party starts to-morrow.

Henry Ryan, under 19 years of age was sentenced to one year in the penitentiary for horse stealing.

STOCKTON, July 14.—The city is about to construct a bridge across Mormon Slough at a cost of $35,000.

NEVADA

BATTLE MOUNTAIN, Nev., July 14.—The Battle Mountain Mining Company shipped to-day 74 tons of ore for Liverpool. A man, name unknown, while attempting to get on the train this evening was severely injured.

LOS ANGELES, July 14.—The Common Council this afternoon reported a committee on the division of the city into three wards and the apportionment of councilmen to each ward, the council to consist of ten members. About half of the amount of the city scrip has been received by the Commissioners appointed under the provisions of the funding bill; the amount to be funded exceeds $30,000. Colonel Dennis just arrived from Arizona reports a large number of discharged soldiers are leaving the Territory. The Indians are troublesome. The Pinal Apaches are treating for peace. The engagement before reported resulted in the death of their chief and forty braves. More troops are needed at almost every post in the Territory.

VIRGINIA CITY, July 14.—A J Beales, of Gold Hill, has been appointed General Agent of the Nevada Ore Company for working gold and silver ores by the Hagan process. Wells Fargo & Co ship to-night five bars of bullion valued at $10,230.

BY STATE TELEGRAPH

JACKSONVILLE, July 14.—On the evening of the 9th instant the wife of Abraham Miller Jr., late of Linn county, was terribly mangled on [illegible] river by the explosion of a cooking stove in which a can of powder had been secreted. At last accounts she was alive but not expected to recover.

The weather for the past two weeks has been the hottest ever known in Southern Oregon, the thermometer ranging between 102 and 111. Fruit is considerably damaged. Weather now cooler.

CITY.

[illegible] I will be able to consummate [illegible] my visit to Portland [illegible] attend the Grand Lodge of the [illegible] resign my seat [illegible] occupy my place. I will [illegible] to the proper [illegible] successor [illegible] the welfare of the Order than myself. I remain

Fraternally yours, A. J. STINSON,
Grand Rep.

The Grand Lodge of the I. O. O. F. will meet at Baltimore on the third Monday in September next.

THE WALLAMET.—It is stated that the upper Wallamet river above the falls is nearly down to low water mark and that already the larger boats find it difficult. It was last year the purpose of the P. T. Co. to improve all the shallow bars by dredging [illegible] and forcing all the water through one narrow chute, which purpose, whatever can be carried into effect this season and presume it will be. Whatever energy and perseverance can do to render the river navigable at all seasons will be done by the company. The whole country is interested in their success in this behalf as [illegible] can be greatly reduced in the annual aggregate whenever the Wallamet can be navigated by [illegible] boats through the entire Summer and Fall seasons as well as in Winter and Spring.

PERSONAL.—David Dudley Field, brother of Judge Field of California and the father of the New York code, has been stopping in the city for a day or two. He has just been visiting British Columbia and is now on his way to San Francisco, whence he will depart by the steamer to-morrow evening.

Mr Charles Dimon, an eminent merchant of New York and correspondent at that place for one or two of our best firms, is at present in this city. Mr Dimon has at various times contributed to the commercial columns of this paper, and is therefore not a stranger to many of our readers. He will soon start, we hear, by way of Dalles, Walla Walla and Idaho for New York. The views of the [illegible] notable men are favorable as regards our city and State.

DIRECT TRADE WITH NEW YORK.—We have mentioned elsewhere that Mr. Chas. Dimon of New York is on a visit to this city and State. We learn that his visit is one of business, connected with the establishment of direct trade between New York and Portland. Our own business men have figured in one or two feeble attempts to establish a line of vessels between the two cities. It may be that if New York comes [illegible] after us we may be captured and benefitted, notwithstanding the repugnance our business men have to seizing upon a good thing.

NO DOUBT OF IT.—Bro. Hand of the *Mountaineer* bids adieu to a bachelor life in some very [illegible] words. He goes into the matrimonial state brimful of happy anticipations, which no doubt will be realized. Among other things he says: "To be associated night and day, in sickness and health, with a young woman of the highest order of excellence must certainly be productive of good." We concur, and we venture to say that the census taker will also look upon it in that same light.

CAUGHT IT.—Who would have thought that a grave and reverend corporation would yield to the seductions of "Shoo! Fly!" Yet we hear that the P. T. Co.'s youngest steamboat has received the name of that boddersome insect, and will soon be ready to commence regular gadding up and down the river. Bully for the *Shoo Fly*. We suspect that Bliss or Pope or both who saw the original fly in New York are responsible for the name.

THEATRICAL.—The Pixley Sisters, supported by Messrs. Vinson, Melville, Rosse and others, are at present performing at Astoria. They will return to Portland early next week, when Miss Annie Pixley will open the Oro Fino Theater for her benefit on Saturday July 24th. Miss Annie is a favorite with the Portland public, as well as a charming young lady; the house will, doubtless, be packed. We bespeak it for her.

BASE BALL.—This game seems to have fallen short out of favor in these parts judging from the infrequency of the games we hear of. The [illegible] however will play Saturday evening on [illegible] common. We hear too that the Club [illegible] preparing for a contest at the State fair for the championship of the State and the [illegible] that go to the victors.

U. S. DISTRICT COURT, DEADY JUDGE.—United States vs W. K. Smith, indictment for perjury; the entire day yesterday occupied in hearing of the argument; case submitted to the jury. Verdict of jury guilty, with a recommendation to the mercy of the court. Motion for new trial filed by defendant's counsel.

At a late hour last night while Johnny Holton and two other persons were on their way to the Wallace House they were attacked by two highwaymen who presented firearms demanding what they had. Holton treated the challenge as a joke, and in the wrangle one of the robbers fired a pistol wounding him severely in the left arm.

CIRCUIT COURT, [illegible] JUDGE.—Proceedings of Thursday July 14th. King and Lownsdale vs H. Boyd, testimony taken and case submitted to jury, which returned a verdict for plaintiffs. Joseph H. Best vs Carissa Best, suit for divorce; decree of divorce granted.

COUNTY COURT, HAMILTON JUDGE.—Thursday July 14th. A. W. Hart presented petition asking to be appointed guardian of Emery Taylor, an infant [illegible] and deserted by the father; proof introduced, decision reserved.

RECOVERED.—John Terrence, who has been for some time insane and confined in the asylum at East Portland, has so far recovered as to be discharged and will start East by the steamer on Saturday in company with M. Waite his brother in law.

[illegible]

FOR SAN FRANCISCO.—The steamship *Moses Taylor* [illegible] will leave this port at [illegible] o'clock P. M. Saturday 16th for San Francisco.

PORTLAND LIBRARY.—The American Annual Encyclopedia was added to the list of volumes in the Portland Library yesterday.

EDITORIAL CALL.—Mr. McPherson, of the McMinnville *Blade*, called on us last evening.

CURRENT NOTES

Some of the posters advertising anti-coolie meetings in New England are adorned with the figure of a Chinaman with a half dozen rats hung to a stick resting on his shoulders

The Baldwin Locomotive Works at Philadelphia employ 1 600 hands whose aggregate wages amount to $150 000 per month The sales of the firm reach a number ... in the neighborhood of $ 100 000 annually

Thomas ... Bullock having declined the Secretaryship of the Republican Congressional Committee Hon James H Platt Jr Representative of the Second Virginia Congressional District has been elected to fill the vacancy

The New York Tribune gives an account of the Chinese in that city who ... where they live etc It says there are now about 50 in the city and that they live in the most squalid regions of the Fourth Sixth and Fourteenth Wards

Father Deveraux a Catholic priest who comes to Washington as a Peace Ambassador on the part of the Blackfeet Indians says that the Piegan affair had on the tribes the most wholesome effect A raid on the settlements had been intended but Colonel Baker's ... inhuman treatment of the unfortunate Piegans caused them to change their minds

Officers of a Kuklux organization A Grand Wizard of the Empire and his ten Genii a Grand Dragon of the Realm and his eight Hydras a Grand Titan of the Dominion and his six Furies a Grand Giant of the Province and his four Goblins a Grand Cyclops of the Den and his two Night Hawks a Grand Magi a Grand Monk a Grand Exchequer a Grand Turk a Grand Scribe a Grand Sentinel and a Grand Ensign

The emigrants to the United States from Germany during 1868 are according to the Magdeburg Times persons in the possession of capital nearly five-sixths being in comfortable circumstances and of fair education It is stated that in former years the emigrants from Prussia were peasants and day laborers of scanty means and limited information on political matters This year they are intelligent mechanics and traders desirous of improving their fortunes

The immense reduction on freights from Chicago to the seaboard in consequence of Vanderbilt's rupture with the Erie people is productive of great joy to shippers and of grief to the stockholders So far, the Eries seem to have had the best of it It is said that they have actually shipped, on their own account over ten thousand head of cattle over the Central Road Vanderbilt's line at an average price of ... per head from Buffalo to New York that being far less than it would cost them to carry the stock over their own line This is playing it rather sharp on the Commodore whose fellow stockholders are anxiously praying him to end the ruinous competition that is wearing out their road and rolling stock for no benefit

OUR CITIZENS certainly deserve credit for the energy they display to make the Oregon Immigration and Labor Exchange a success and benefit to the State as well as the immigrant coming to our State Every citizen should give all the aid in their power to help the large number of strangers coming to our State and not forget to inform them that Kuhn & Fishel No 91 Front street have the largest stock of clothing in Oregon other goods are of superior quality and sold at extreme low prices

Pioneers Attention.—You are requested to turn out in full force for Base Ball practice this afternoon at 4 o clock sharp

The Life Sustaining Organs

The two organs which ... directly the support of the body are the stomach and liver In the former the first process ... takes place under the action of that powerful solvent the gastric juice Thence the food ... passes into the duodenum where it is subjected to the action of the bile or gall flowing from the liver and of the fluid generated by the pancreas or sweetbread ... These secretions separate the nutritious portion from the rest and ... it is then taken up by the absorbents and conveyed into the channels of circulation in the form of venous blood while the waste matter is discharged through the bowels Unless all these processes are duly performed disease ... is the inevitable ... and the best of all medicinal agents for ... regulating the ... of these ... organs ... Hostetter's ... Bitters ... The effect ... small ... headache and extreme mental depression are the usual accompaniments of costiveness A course of the Bitters will infallibly relieve and finally banish these obnoxious symptoms while invigorating the stomach and promoting healthy action in the liver This genial vegetable stomachic and alterative strikes at disease in its primary sources the assimilating secretive and expulsive organs, and the cures it effects are consequently thorough and complete.

HAS CONSTANTLY ON HAND GROUND AND ROASTED COFFEE GREEN COFFEE of the best qualities. CREAM OF TARTAR and SPICES of all sorts.

The undersigned who has always enjoyed public confidence for the excellent quality of his Coffee, neglects nothing to justify the good name acquired by his productions the sale of which daily increases The acknowledged superiority of his merchandise which commands here and in the markets of the interior a relatively higher price excites the cupidity of some manufacturers, and every day he sees increasing the number of those who, by counterfeit or imitation of his mark seek to deceive the public palming upon them their inferior productions for the genuine G VENARD CHARTRES COFFEE This fraud and deception only after a trial but only adds to the favorable opinion of the consumers the very flattering though unwilling testimony of the counterfeiters Nevertheless buyers should be forewarned and placed on their guard against this practice

Chinese Commerce

From the N Y Star, [illegible]

Some [illegible] statistics pertaining to the [illegible] trade [illegible] obtained by [illegible] part [illegible] at Shanghai and members of the Chamber of Commerce of that city made up for the purpose of gaining information [illegible] the commerce carried on along the Yangtse Kiang river above Hankow has lately been submitted to the British Parliament. The information thus [illegible] is of [illegible] importance to American merchants [illegible] the more so as our relations with China are becoming [illegible] through the instrumentality of [illegible] the electric telegraph and [illegible]. The Yangtse Kiang is the principal river of the Celestial Empire being about [illegible] miles in length and bearing much the same relation to that country as the Mississippi [illegible] to the United States. A careful [illegible] survey was made of the upper Yangtse, which was found to be navigable for steamers of [illegible] feet draft as far as Ichang a distance of 365 miles from Hankow. The [illegible] Hankow is [illegible] the lower section but [illegible] a pilot to keep pace with [illegible]. On the result of the survey will [illegible] is anticipated [illegible] the placing of steamers on the river to Ichang. Above Ichang the rapids [illegible] numerous though there appeared to be plenty of water the average being seldom less than ten fathoms. Above the city and port of Hankow the next town of importance is [illegible] ninety miles distant, in the vicinity of which the country is purely agricultural and subject to inundations from its flatness. The first populous town above the Tung ting Lake is Yo [illegible] 286 miles from Hankow. Twenty-seven miles higher up lies the city of Shasi, a first class trading mart. The junks extend [illegible] for a mile and a half in length and over 800 were counted, with an aggregate of more than 40,000 tons. Shasi is a port of transhipment where the vessels from Szechuen [illegible] from Hankow Fanching and the H[illegible] ports. The ships at Shasi were well furnished with foreign goods both cotton and woolen, and the city presented a wealthy appearance. The river is wide at Shasi and the anchorage good. Above Shasi the populous places become numerous. Kiang Kow [illegible] Che-Kiang, and E-too are mentioned as trading towns in communication with canals and land carriage. Ichang, for the present is fixed as the highest limit of steam navigation from the sea. The navigation up to that port presents no intricacies but the minimum depth of the water is only from seven to eight feet, and there is good anchorage for the largest of ships near the town. All the teas from the province of How-fung-chow are shipped at Ichang, and the country is rich in agricultural productions. Upwards from Ichang the great river continues its course through a series of gorges for 100 miles, and the population on its immediate banks is therefore scanty though inland the country is highly cultivated and thickly peopled. At Batung coal is worked on the hills and affords abundant employment. The next town of any note is Wooshan, in the province of Szechuen where opium is cultivated and silk and tea produced. About 18 miles from Wooshan in the city of Khwei, the great barrier station on the Yangtaze. An immense Imperial income is derived from this district. A succession of thriving towns were passed after leaving Khwei until Chungking was reached 362 geographical miles from Ichang and 725 from Hankow. Chungking is a place of large trade. The frontage for five miles in length was lined with boats, as was also an extensive village on the opposite shore. Chungking is the *entrepot* for Western China and is surrounded with wealthy towns and country villages. Its largest trade is in raw cotton imported from Keangsoo and Eastern Hoopeh and the spinning and weaving are largely conducted by the natives. Salt and foreign goods are assigned the second rank in trade. The Szechuen merchants have trading correspondence with Canton, and woolen goods are extensively used and also distributed. The people of Chungking expressed great readiness to trade with the [illegible]. Except in salt sulphur and spelter, and more or less in metals generally no actual monopoly exists, but the most important branches of trade are under the control of the Companies of Associated Hongs who were responsible to the authorities for the duties, and whose power to regulate the trade in particular commodities is recognized. Wealth abounds in the district and the [illegible] are of opinion that it would be for the best interests of commerce that not only the upper Yangtaze should be opened but the Han Shui also, which is an offshoot of the Yangtaze and forms the great Western route between Canton and Pekin.

The increase of trade at the principal ports of the lower Yangtaze, since the opening of Hankow, may be regarded as an earnest of the prospective increase on the upper part, now that its successful navigation is demonstrated. The returns of the Imperial customs for 1867 shows that the imports by foreigners at the four ports of Shanghae Hankow Kin Kiang and Chin-Kiang, on the Yangtaze, reached 90,497,632 taels. Combining these figures of the imports in foreign bottoms with the 83,063,541, taels of native imports and we have and aggregate commerce of 133 560 175 taels at the four ports mentioned. As the tael is about a dollar and a half the commerce of the four ports in 1867 was rising $200,000,000 in gold. The navigation of the lower Yangtaze by steamers is mainly in the hands our countrymen, and we may be sure that if the navigation of the upper river proves to be feasible they will carry the same enterprise to that part also. Comparatively a small amount of our productions find a market in China the imports from the United States in 1867 being only 702,683 taels against 66 332 [illegible] taels from Great Britain and her colonies while the exports to the two countries [illegible] respectively 7,493,388 taels and 44 961 [illegible] taels. We did much better than this in the way of exports to China before the war during which British merchants obtained a practical monopoly of the business of supplying the Chinese with Cotton Cloths &c. After we have settled down upon a better financial system we shall probably soon recover our lost ground besides developing a demand for innumerable implements and goods to which the Chinese have hitherto been strangers. Although England has us at a great disadvantage in point of Chinese trade we have an important advantage over her in the river transportation business we have availed ourselves of the most lucrative opening and [illegible] the richest prize which China has to offer. For where our steamers go trade is sure to be [illegible]ated.

The Shrew —The *Saturday Review* contains the following

The woman who rails and [illegible] at [illegible] very trifling annoyance that occurs till she makes the whole house miserable [illegible] knew that she is committing a sin. She only thinks herself wronged by circumstances [illegible] people, and that she is exercising a right [illegible] indignation, and making [illegible] against the same. She does not dream that she is digging the grave of her own happiness and esteem but after she has worried her family to the very verge of [illegible] her hard case [illegible] would do so much [illegible] in all probability for mine [illegible] it is her temper not her heart [illegible] and we frequently find the most [illegible] able shrew capable of the [illegible] heroic virtues when the pinch comes. Yet as pinches are only occasional and the ordinary [illegible] highway the place we mostly walk the shrew's heroic virtues are brought into play but rarely, while shrewishness is a thing of every day and her power and habit of making people unhappy one that has no ending save in death.

Hopeful Indications —We take the following from the *Statesman*

Some cases of contest before Congress having resulted in unseating Democratic claimants probably with great justice, the virtue of the *Herald* is offended and it denounces all such cases as the corrupt and arbitrary exercises of power by the Republican majority. We [illegible] sure to commend this virtuous indignation of the Democratic press supposing that there may be some shadow of sincerity in it and that it is not merely pretense and we beg that the subject shall be frequently treated of until the contests in the Oregon Legislature are all disposed of. Honesty is a nice thing and if the Democrats in the coming session value it as highly as the *Herald* does they won't try to turn out a dozen or so Republican members just because they have the vote to do it with

FINANCE AND COMMERCE

Portland, Thursday July [illegible]

The latest gold quotation at New York was 113[illegible] [illegible] table at [illegible]

The money market is not exactly tight but there is some lack of money as compared with the needs of business. There are constantly some receipts both from the mines and from interior debt ors to our wholesale houses but not enough [illegible] the aggregate [illegible]. [illegible] the [illegible] annual at this season of the year [illegible] [illegible] ent on the outside. The supply seeking loans is rather [illegible] during the first half of the year [illegible] rates are [illegible] than in California. The [illegible] rates which have ruled in this coast cannot be [illegible] to need and [illegible] capitalists have [illegible] grasping policy and are now commencing to reap the legitimate fruits. Foreign capital is seeking [illegible] and has already conferred great benefit by [illegible] rates [illegible] 9 and 10 per cent. [illegible] loans having been effected at 9 per cent within the week past. [illegible] improvement in all branches of business must follow so radical a change in that enterprises heretofore embryonic must soon take active life. Money will be turned over much more frequently and capital as well [illegible] the constant employment of their funds and the general prosperity consequent on cheap money than they possibly could at former rates

In the merchandise market there has been more general activity than during last week. Hardware [illegible] constitute an exception trade having been rather light though there is no weakening of prices. Stocks are exceedingly full and [illegible] they are to be [illegible] through the occurrence of some [illegible] demand or [illegible] in prices. Agricultural [illegible] especially harvesting machinery have been in strong demand and [illegible] having all they can [illegible]. The stocks of machinery are getting very well cleaned out [illegible] moderate supply [illegible] In the dry goods lines we find trade more active than is usual at this season of the year. Groceries—very good trade quotations as before

Produce—We find but little doing in produce. All the wheat offering is going into the ship *Hermione* [illegible] which is under charter to a San Francisco firm to take a cargo for Liverpool. Prices are as quoted last week. There is no remark called for in regard to other articles coming under this head

Provisions—Bacon is firm at an advance of a half cent per pound under late advices from San Francisco. Eggs are scarce in the market and quotable at 25@30c ⅌ dozen.

The San Francisco *Bulletin* gives the following table exhibiting the receipts of Oregon Flour and Wheat at San Francisco from July 1 1869 to June 30 1870

1869	Flour bbls	Wheat ctls
July	3 [illegible]69	
August	2 [illegible]	700
September	8 [illegible]	1,200
October	5 [illegible]16	1,517
November	11 [illegible]	[illegible]
December	18 [illegible]82	10,005
January	18 360	10,101

March	18 757	1[illegible],447
April	6 [illegible]	1,159
May	[illegible]3	
June	7 095	
Totals	124 [illegible]50	6[illegible],[illegible]01

Reduced to the basis of wheat the above quantities aggregate 4[illegible]9 700 centals which compares as follows with similar receipts from the same source for the three previous fiscal years

1869—67 centals 244 845 | 1868—69 centals [illegible] 263
1867—68 547 405 | 1869—70 4[illegible]9,[illegible]44

The later mail advices from Europe give the explanation of the sudden fall in the price of Wheat in Liverpool, in the change of weather. The drought had been very severe in England causing prices to respond to the French demand stimulated by a similar condition of affairs, and the Mark Lane *Express* of June 13 remarks

Although showers have fallen in Scotland and the West of England generally has had another dry week, with a scorching sun and bleak wind leaving certain more or less affected. Wheat on the strong well farmed lands, notwithstanding much [illegible] plant has on the whole a favorable aspect, but on the gravel and light soils we hear it is rapidly dying off. The rapidity of communication now is such that one European market instantly acts upon another and after a steady advance on Wheat from week to week, holders often refuse selling at all, upon the supposition that some great calamity has happened or is expected. Still the disposition of speculators to realize in the end brings a calm and we think the present excitement is likely to disappear

This was the state of affairs on the 13th. On the 15th showers fell generally in England. The London *News* says

From all parts of the country we receive accounts of the violence of the storm which prevailed on Thursday night. One or two slight showers fell in Birmingham during the day and at half past seven in the evening it began to rain steadily though not very copiously. Up to midnight the rain continued. Late in the evening there was a slight thunder storm. The rain was generally through all the district. There was a copious fall of rain in Manchester on Thursday and reports received from distant stations seem to indicate that the long continued drought has come to an end. A Leeds paper states that some highly acceptable showers of rain fell on Thursday in that district. A highly beneficial change has taken place in the weather in Norfolk the rain having fallen rather copiously

This altered the aspect for the present in England and, as we have seen the price fell 7d per cental. In France on the same day a similar change took place

Paris, June 15 —The rise of all breadstuffs and especially of Wheat has reached unusual proportions, in the last week. The holders are 4 francs above the views of buyers. The millers work but little and buy only what is strictly necessary for that reason the prices did not advance more than two or three francs per sack on the quotations of the last week. We quote White Wheat choice f45a47 per 120 kilos do fair f45a46 Red choice, f44 50a46 50; do fair, f43a44; low grades f40a42

The Flour market opened on the morning of the 15th with a rise and some animation but at noon the buyer showed more reserve. On the Exchange Thursday 16th the latest quotations are Flour eight marks per sack of 159 kilos to be delivered in June f75 25a [illegible] to arrive July and August f[illegible] 50 to arrive four last months [illegible] The sellers are in majorities

In American coin at [illegible] per dollar the prices are as follows. White Wheat, fair to choice, $3 20@3 45 per cental. Red do, do $3 15a3 40. Flour eight marks per 198 pounds, to be delivered in June $8 20a8 30; to arrive July and August $8 35a8 40; to arrive last four months $8 0[illegible]@8 12.

The *Lyons Progres* thus sums up its expectations of the approaching harvest

If there were reasons to doubt that the harvest in France would be less abundant this year than usual it certainly will not be the case elsewhere. According to the latest information the wheat crops are [illegible] in England. In Southern Russia the [illegible] and prices have slightly [illegible] at Odessa in consequence of the anticipated crops. In Belgium, Holland and Prussia it is estimated that the harvest will be sufficiently abundant to meet the want of those countries without recurring to supplies from abroad. The last accounts from Algiers state that the cereal crops are very good

The cessation of French purchases was the result of this change and we have now rather dull accounts of the markets. New York dates to the 1st inst state

The accounts from England and the Continent are meagre but the inference deduced from the decline at Liverpool is that the appearance of the crops has improved under the late showers. In any event it is yet too early to form reliable estimates of the foreign harvests and until something can be ascertained [illegible] at [illegible] the future [illegible] At Chicago the speculative feature of the last few weeks has given place [illegible] the bankers of that city having [illegible] their Wheat [illegible] possible [illegible]. The harvest in the West is progressing [illegible] the Northwest favorably

NEW REMEDIES, NEW REMEDIES

Dr Gibbon's Dispensary,

623 KEARNEY STREET NEAR COMMERCIAL San Francisco. Established in 1854 for the treatment of Sexual and Seminal Diseases such as Gonorrhea Gleet Stricture Syphilis in all its forms Seminal Weakness Impotency [illegible] Skin Diseases (of years standing) [illegible] Ulcerated Leg successfully treated

Horrible Diseases.

How many thousands of persons both male and female are there who are suffering out a miserable existence from the effects of secret indulgences or from virus absorbed into the system. Look at their pallid emaciated and disfigured faces and their broken-down constitutions disqualifying them for the happiness of marriage or the enjoyment of life. In this horrid situation thousands suffer until death closes the scene. Let parents guardians friends attend to those who are suffering with any of these horrible life destroying maladies—see that they are cared for and cured before it be too late. Send them immediately to Doctor Gibbon a physician who has made private disease his especial study for years and who is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to those who are afflicted or to those who are interested in the welfare of their friends, to be careful of the many pretended doctors who infest all cities publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful and make strict inquiry or you may fall into the hands of those charlatans

Seminal Weakness.

Seminal Emissions the consequence of self-abuse. This solitary vice, or depraved sexual indulgence is practised by the youth of both sexes to an almost unlimited extent, producing with unerring certainty the following train of morbid symptoms, unless combatted by scientific medical measures viz. Sallow countenance dark spots under the eyes pain in the head ringing in the ears noise like the rustling of leaves and attiring of chariots uneasiness about the loins weakness of the limbs confused vision, blunted intellect loss of confidence diffidence in approaching strangers a dislike to form new acquaintances, a disposition to shun society loss of memory, hectic flushes pimples and [illegible] eruptions about the face, furred tongue fetid breath [illegible] consumption night sweats monomania and frequently insanity. If relief be not obtained should apply immediately either in person or by letter and have a cure effected by his new and scientific mode of treating this disease which never fails of effecting a quick and radical cure. Dr G will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of his complaint by either of the San Francisco quacks

MARRIED MEN,

Or those who contemplate marriage who are suffering under any of these fearful maladies should not forget the sacred responsibility resting upon them nor delay obtaining immediate relief

DOCTOR GIBBON is responsible and will give to each patient a written instrument binding himself to effect a radical and permanent cure or make no charge

CURED AT HOME.

Persons at a distance may be CURED AT HOME, by addressing a letter to Dr Gibbon stating the symptoms length of time the disease has continued and have medicines promptly forwarded free from damage and curiosity to any part of the country with full and plain directions for use for Ten Dollars, sent in registered letter or through Wells Fargo & Co

Caution to the Unfortunate

Beware of the San Francisco quacks and pretenders who with big guns [illegible] to enrich themselves upon the unwary. Some of the self-styled doctors whose names are to be found in the daily and weekly newspapers of San Francisco and other places have been tradesmen and became too lazy to work at their trades [illegible] blacksmiths shoemakers [illegible] office keepers etc. Look over the San Francisco Directory and you will not find their Medical Institutes in it but you will find them [illegible] in the Directory for 186[illegible] and 1869. The only way to avoid imposition is to make inquiry. It will cost you nothing and may save you [illegible] advertising physicians in eight cases out of ten are bogus; there is no safety in trusting any of them until you know who and what they are. Dr Gibbon [illegible] people by exhibiting [illegible] will satisfy [illegible] who may call at his office [illegible] of his ability [illegible] properly [illegible]
